SEVIER RIVER WATER COMMISSIONER

Richfield, Utah

Mr. Donald C. Norseth
State Engineers Office
403 State Capitol
Salt Lake City 14, Utah

Dear Don:

Thanks for the copy of the memo regarding Castle and Minnie Creeks. I agree with you that a meeting between the users would be desirable.

The reservoir of Duncan Findlay's is empty now. After a closer look I estimate that the capacity might be somewhere around 200 acre-feet. I will keep you advised of any new developments on this end.

Sincerely,

Keith B. Christensen
River Commissioner
